

## WILLIAMS NAMED AS U. S. SENATOR, IS GENERAL BELIEF

Conceded That Vardaman Is Beaten by Less Than 2,000 Votes.

JACKSON, Miss., Aug. 3.—While no official returns have been given out, it was generally conceded tonight that John Sharp Williams will be the next United States Senator from Mississippi by a majority over Governor Vardaman of less than 2,000 votes.

These figures would be official were it not that complete returns have not yet been received from Jeff Davis county, the only county to be heard from.

It is believed there will be an even break in Jeff Davis county, where both candidates have made phenomenal efforts.

### Managers Are Confident.

The following statement was issued tonight by the Williams campaign committee:

"Williams Headquarters, Aug. 3, 1907. 'Complete returns authorize us to claim John Sharp Williams nominated by a majority of 1,500 votes. We feel no doubt about Williams' election.'"

### Brewer in the Lead.

Official count in the gubernatorial race showed Brewer in the lead by more than 2,000, with two Brewer counties to be heard from. Noel and Scott are running close for second place.

It is conceded that Webb has been elected railroad commissioner. No satisfaction regarding other officers is obtainable, owing to general interest in the Senatorial and gubernatorial races.

Business here has been practically at a standstill. Crowds were around the bulletin boards, and the people eagerly watched the returns.

Williams carries Neshoba county by 400. Vardaman carried Kemper by 211.

### Can't Beat Us, He Says.

Congressman John Sharp Williams reached here from Yazoo City at noon, and was met by a delegation of 500 supporters.

"They can't beat us, boys," said Williams. "We are in the lead by over 1,500 votes on official returns, with the counties of Neshoba, Harrison, Tippah, and Itawamba to be heard from." "The report from these counties will not greatly change the reports at hand."

"It will take the official returns to determine the result," was the statement given out by Gerrard Harris, secretary of the Vardaman campaign committee, as he left the governor's mansion this afternoon. "We have not lost hope of Vardaman's election."

## JAPS ORDER GUNS FROM THE KRUPPS; CALL FOR 150,000

Orders have just been placed by the Japanese government with the Krupp works at Essen for a consignment of 150,000 rifles and a large number of field guns to be shipped to Yokohama at the earliest possible moment, according to a cablegram received at the State Department.

The information comes from the American embassy at Berlin, reported originally by the American military attaché. For some time the Japanese naval and military attaches at the German capital have been placing orders for guns and other arms, reports to this effect having reached Washington from time to time.

The Japanese commission that recently passed through the United States en route to Europe, buying material of various sorts, and who contracted for large consignments of steel rails and other material in this country for the construction of government railroads, are understood to have given his orders in Germany for military arms.

While these orders have not been unusual, Japan having patronized German gun manufacturers for years, this latest report, immediately attracted the attention of the Government officials because of its extraordinary size.

## Southern Fights Governor Comer In Birmingham

MONTGOMERY, Ala., Aug. 2.—With the departure Saturday afternoon of Governor Comer for his home in Birmingham, the scene of the Southern railway controversy shifts to the Magic City, as it is conceded by all that the executive has been and will continue to be the mainstay of the fight against the railroad.

Secretary of State Frank Julian has notified the clerk of the court of Talladega county of his action in canceling the license, and the latter official has already served notice upon Knox, Dixon & Burr, the Southern's representatives at Talladega.

Just when and where and how the legal pyrotechnics will begin cannot be ascertained, but rumors are persistent as they are varied. One report which is given much credence says that the State will make the first move by arresting employees of the railroad at Talladega, where the present action was begun.

Although the franchise is in no manner affected by the cancellation of the license to do business in this State, yet the railroad is clearly displaying contempt for the law, for each sale of a ticket and each shipment of a package of points within the State is in violation of section 4 of State bill No. 82.

The report that the discontinuance of the Southern's interstate business would mean an immediate extra session of the Legislature is practically without foundation. By some of the legislators it was thought that if the railroad refused to allow interstate traffic on its lines, the sentiment of a suffering public would compel a speedy remedy.

## FORAKER'S RECENT HIGH TARIFF SPEECH!

Foraker (to Ohio republican state committee)—"Gentlemen, we must not revise the tariff. It does lots of people good. Let well enough alone. And now, after what I have said, gentlemen, can you imagine any one who is foolish enough to stand up for tariff revision?"

—From Chicago Daily Tribune.

## GERMANY SEEKS NEW ALLIANCES

Kaiser Realizes He's Lost Prestige Among Nations, Says Ambassador.

Twice Failed as War Lord. Refusal of Peace Means Trouble.

LONDON, Aug. 3.—"The permanent peace of Europe depends far more on the attitude that England and the Continent assume toward the recent friendship proposals of Kaiser Wilhelm than any number of Hague conferences."

This is the opinion expressed today by an ambassador of one of the great powers.

His name for obvious reasons cannot be used. Continuing he said: "The Kaiser is making the first peace crusade of his reign. It must succeed or there will be trouble. The Kaiser realizes how his country has lost diplomatic prestige through the ententes between nations which leave Germany out."

England, France, Spain, and Italy have eliminated the possibility of war among themselves as far as human foresight can do it. Japan's treaties with England and France have placed trouble in the Far East out of the range of diplomatic possibility. Even Russia is joining the international peace movement by her new entente with England.

### Kaiser Sees Weakness.

"The Kaiser sees he can not hold out against the opinion of Europe. Hence his desire to join the peace movement."

"But before reaching this conclusion he made two attempts to once more dazzle Europe as his war lord, although this is not generally known. He asked the Dutch government to pass a German fleet of torpedo boats through the Maas river, his purpose being to show Europe that Germany could use the sound, with the commanding fortresses along those waters, could hold the Baltic against the combined navies of Europe."

Peace Circles Closed to Him.

"In seeking peace the Kaiser is learning how little his reputation for wanting trouble is against him. Replies to feelers put out in Paris and London were far from flattering. Suspicious of his sudden change, France and England told the German ruler he cannot be admitted into the peace circles until he gives evidence of his sincerity."

"I believe the Kaiser is sincere, and that these assurances will be forthcoming soon. Once Germany joins the peace movement earnestly, limitation of armaments and complete compulsory arbitration are within the range of practical world politics. It is conceivable, therefore, that before another Hague conference assemblies the European chancelleries will have usurped its work."

"But if France and England refuse indefinitely the peace overtures from Germany it will be a calamity. Germany will then be driven into a corner, and the inevitable result can be only one thing—a European war."

## FORAKER STANDS PAT ON TARIFF QUESTION

SANDUSKY, Ohio, Aug. 3.—Senator Foraker did not repeat his challenge delivered a week ago at Bellefontaine, during William H. Taft to defend the reduction in tariff schedules. What he said today on this subject was, "We are told we must revise the tariff. Secretary Taft wants to cut it down. I don't know just what he wants to do except that he thinks it ought to be revised." "Theodore E. Burton also wants to revise the tariff. Do you farmers want the prices of wool and sheep and wheat and your other products cut down?" "Unless they can give a satisfactory reason for a change the tariff should stand as it is."

"I'd rather have a policy that makes more rich men than one which will make more poor men."

## Armenian Crimes Will Be Exposed, Police Confident

NEW YORK, Aug. 3.—Through the offer which Bedros Hampartoomian, Millionaire H. S. Travassianjan's assassin, is reported to have made today to confess all he knows about Armenian terrorist organization, it is believed the authorities are on the verge of learning the inside history, not only of this murder, but the assassination of half a dozen or more other Armenians who were put out of the way because of their refusal to pay tribute to the society.

Hampartoomian's offer was coupled, it is said, with a plea for clemency. The district judge's reply was that if Hampartoomian was really duped, as he claims, his duty should be plain. As the slayer has been constantly weakening it is believed he will tell all he knows.

## OPERA AT GLEN ECHO: TO GIVE "IOLANTHE"

Light opera will invade the confines of Glen Echo this week, beginning tomorrow night, when "Iolanthe," the Gilbert and Sullivan opera, will be presented. Washington has furnished principals and chorus for the production. Those in charge say the opera will be carefully staged.

### Married.

BROWNE-WANNALL—On Wednesday, July 31, 1907, at 6:30 p. m., at St. Aloysius Church, by the Rev. Father Fort, JAMES B. BROWNE, of Richmond, Va., to Miss EDNA MAE WANNALL, of Washington, D. C., at home to friends during month of September.

## ST. GAUDENS DEAD AFTER A YEAR OF BAD HEALTH

Great Sculptor Worked to Last—Born in Dublin.

CORNISH, N. H., Aug. 2.—Augustus St. Gaudens, one of the great sculptors of the United States, died late this afternoon at his home here.

The artist had been failing for a year and in the last month had been sinking rapidly. Notwithstanding this, however, he continued going to his studio until Thursday.

He could not work, but directed his assistants constantly.

St. Gaudens was born in Dublin, March 1, 1848. He was brought to this country in infancy and grew up here. He learned the trade of a cameo cutter and studied drawing at Cooper Institute, New York. Later he was a student at the National Academy of Design.

Some of his most famous pieces are "Adoration of the Cross," "The Puritan," "Diana," on the Madison Square Garden tower, New York; and statues of Abraham, Lincoln, Peter Cooper, John A. Logan, and Admiral Farragut, which occupy sites in various cities.
